July 3 1918

House of Education

Graduates: 21.11.17 The ball is rolling after the Carlisle

and Clitheroe meetings. Teachers from the latter place have been to visit Skipton. Do get Miss Whyte (Alexandra College) to send some of her girls here for their teaching diploma. The Government Inspector for secondary schools in Lancashire seemed to be very full of the idea that "if girls who had taken a degree would go and have a twelve months training in your methods the result would be perfect, and the teachers having a degree would be able to command not only excellent posts but excellent salaries" (Dr. Musson, Gov. of Grammar School, Clitheroe) I have held out agst. a 12 months training hitherto but see we must have women with both a degree and a teaching diploma for the posts we shall have to fill. Please talk to Miss Whyte (Alex. Coll) and see if she has any to send us.

I am interested that Mr. Trench should take the chairs. I have corresponded with him.

Recognition June 28.1918

My desire is that we should be recognised as a "Certified Training College" in case any of our students should wish to take up elementary work, but I doubt if many of them would be disposed to do so. The work is too strenuous and they are too sure of good posts. ..

1900. Dear time, all my soul is in PNEU
I wish H. J. E. is only a little part -
